Re: Transportation of Hazardous Wastes, I.D. No. PRD 000768283
Travenol Laboratories, Inc., Plant No. 1
Jayuya, Puerto Rico

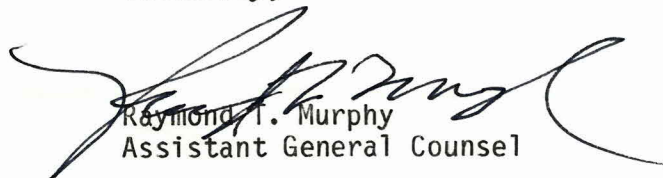

JUL 15 8 14 AM '83
ENVIRONMENTAL AGENCY
NEW YORK, N.Y. 10007

Dear Sir or Madam:

In August 1980, Travenol Laboratories, Inc. submitted a Notification of Hazardous Waste Activity for its Plant No. 1 in Jayuya, Puerto Rico. That notification indicated that the plant was a transporter of hazardous waste as well as a generator and TSDF. The notification as a transporter was filed solely as a protective measure because, at the time, we were uncertain as to whether qualified waste haulers would be available. However, our concern proved to be unfounded. The plant has never had to transport any hazardous wastes and has no intention to do so in the future. Accordingly, would you please modify your records to show that this facility is not a transporter of hazardous waste. It does, however, continue to be a large generator and a storage facility.

If you have any questions, please call me at the phone number noted above.

Sincerely,

Raymond T. Murphy
Assistant General Counsel
